EMR Provides Communications Solutions for Emergency First Responders

We're here to help! Call: **(623) 581-2875**

PRODUCTS SPOTLIGHT

EMR BDA/JDA In-Building Signal Enhancement Systems provide two-way UL/DL filtering and amplification of RF signals in buildings, tunnels, or areas that are shaded from adequate RF signal coverage. These are stand-alone, NFPA Compliant units encased in red NEMA 4 enclosures for optimal

protection from harsh environmental conditions. Our BDAs operate on 115 VAC with options for power including 220 VAC, 13.6 VDC as well as UPS/Battery backup.

EMR's Major Product Offerings:

- * Transmitter Combiners
- * Antenna Duplexers
- * Signal Enhancement

MEET THE TEAM!

Kahtan Al-Hashimi is our Safety and Quality Control Manager who has been with EMR for over 23 years. He's worked through every department pertaining to manufacturing and assembly and has applied his vast experience to ensure quality standards of EMR products are maintained, while ensuring safety measures are upheld throughout our facilities.

"It's critical as an essential business to ensure safety

measures are strictly followed in the wake of the COVID-19 pandemic. At EMR we routinely clean work stations, practice social distancing, and wear PPE equipment". Kahtan has worked tirelessly to keep safety our number one priority as we continue day to day operations.

"I'm very proud of the work I do, manufacturing high quality RF products, and ensuring all employees go home safe at the end of each work day." Kahtan loves movies, collecting Starwars memorabilia and

* Short Haul Combiners

* IM Control Devices

* Multicouplers

* Antennas

In the News: DOJ Emergency Supplemental Funding Made Available

Reliable Public Safety Communications will be even more important in coming months as emergency first responders work around the clock to save lives. To help address COVID-19 pandemic, the Department of Justice has made \$850 million available for the FY 2020 CESF program to help Public Safety agencies. These grants are immediately available for Public Safety and Commercial Wireless Dealer and Distributor associates. The deadline for filing is May 29th, 2020. The eligible allocations for the FY 2020 CESF Program can be found at: <https://bja.ojp.gov/program/fy20-cesf-allocations>
